

ATTENTION ALL COWBOYS AND COWGIRLS

The Texican Rangers Board is acutely aware of the current ammunition and reloading component shortages and are taking the following action to help our fellow shooters continue with their passion for cowboy action shooting. A new category will be available at our club; namely **Rimfire Cowboy/Cowgirl.** This category will be available beginning with the February match.

You will shoot the pistol and rifle portions of each stage with 22 caliber lead bullets ONLY - No jacketed bullets allowed. If there are knockdown targets as a part of the rifle or pistol stage a hit is all that is required. The shotgun portion will still be the same (ie a knockdown is required to be knocked down!) For club members, this is going to be an end of year award category the same as all other categories with the identical award.

It is our hope that this will ease the burden of the shortages and allow us all to keep our sport sustained.

Looking forward to seeing y'all at the match.
